## Professional Experience

**Destinique LLC** Software Engineer

January 2026 – Continue | Remote, USA Destin based, luxury travel advisor

As a Software Engineer at Destinique LLC, I implemented visitor tracking systems and integrated Google Analytics to monitor user behavior and performance metrics. I developed internal tools for ads generation and promotions, contributed to website development using Angular, and supported the SEO team by managing and optimizing WordPress blog content to improve organic visibility and traffic.

**BUZFI Limited** Software Engineer

March 2024 – December 2025 | Remote, USA based ecommerce startup

As the software Engineer, my core responsibility is to develop all necessary custom software solutions for the company and deliver them to users. BUZFI is a startup e-commerce company under BUZFI GROUP Ltd., providing innovative product solutions using PHP, Laravel, and MySQL Redis Cache.

**JS Enterprise Limited (Paikaree , Paimart)** Assistant Manager (Engineering)

January 2021 – February 2024 | Dhaka, Bangladesh

As a member of the Engineering Department, my core responsibility was to assist in developing all necessary custom software solutions for the company and deliver them to users. Paikaree.com.bd is a startup e-commerce company of JS Enterprise Ltd., providing products to retail consumers at wholesale prices in Bangladesh and Dubai. Our Engineering Department products include E-Commerce platforms, POS systems, ERP solutions, mobile applications, and more using PHP, Laravel, and MySQL

**ADN Telecom Limited** Assistant Manager (Engineering)  
October 2019 – January 2021 | Gulshan, Dhaka, Bangladesh

Served multinational corporations, government agencies, and other renowned companies with web applications and e-commerce solutions using PHP, Laravel, and MySQL.

**Nybbles Systems Limited (NYBSYS)** Software Engineer  
December 2017 – October 2019 | Mirpur 6, Dhaka, Bangladesh

Worked with a South Africa-based software company, developing front-end solutions for large-scale web applications and APIs. Collaborated with multiple teams to complete projects including mobile, web, IoT, and LTE solutions.

## Education and Training

Dhaka International University  
**Bachelor of Science in Computer Science & Engineering (2010 – 2015)**

BITM, BASIS  
**Web Applications Development with PHP | 2015**
